K A R M A R E V E R O

WELCOME TO KARMA

Timeless design powered by electricity, fuel and the sun.

Vehicles unapologetically conspicuous in their beauty and
uncommonly light in their footprint. An unparalleled ownership
experience, focused on the few. We are wired differently.
And we know you are too.

OUR ESSENCE

It is easy to describe a responsible company. It is harder to be one. Karma is more than just a name to us. We act with intention, with an awareness of what we are doing, and how and why we are doing it. All cars have a soul, and that soul is us. Hundreds of people making thousands of decisions that, we hope, speak to you.

OUR ROOTS

Our company, our vehicles and our passion are born and bred in California. We are influenced by the mountains, the desert, the ocean, the light. We live and work here, and that matters. We are creating history; no vehicle has been assembled in Southern California in decades. Until now.

OUR SOUL

Our people are the beating heart of our company.

Individuals from the worlds of technology, aerospace, art, entertainment and automotive blend their diverse skills seamlessly to create a uniquely talented team.

O U R S T Y L E

Cars have become commodities. Design has taken a back seat, and most everything on the road looks the same. Not here. We designed our vehicles with proportions from the gods. The result: an almost primal beauty. Timeless and modern. Voluptuous and sensual. Created to elicit a visceral, emotional response.

OUR SPACE

The Revero's exterior design language, with its flowing lines and muscular curves, is mirrored in the vehicle's interior. The cabin is sumptuous; it cocoons you, overloading your senses with the carefully crafted mix of materials and exceptional craftsmanship.

OUR WORLD

If you drive less than 50 miles per trip, you may never buy gas again. Some of you will buy less than a gallon of gas for every 100 miles driven. We are not perfect, but we do what we can to produce an ecologically-sensitive product.

O U R A R T I S T R Y

The badge on each Revero is hand-painted by an artist and set in a precision-machined ring of aluminum. Look closely and you may notice some subtle differences between each unique piece, so every car we make is truly one of a kind.

OUR BRAINS AND OUR BRAWN

The Revero is about feel, not numbers. No knowledge of its 0-60 time will help you define its allure. We can and will quote impressive vehicle technical specs. But we would rather state our performance story differently: we have enough. To move you. In every way.

PERFORMANCE

The Revero delivers exhilarating performance thanks to its lightweight aluminum spaceframe construction and the near limitless torque produced by the vehicle's dual electric motors. Acceleration off the line is linear, smooth and swift.

DRIVABILITY

Responsiveness has never felt so supple. The low, centrally-mounted battery pack gives the Revero an exceptionally low center of gravity and near 50:50 weight distribution. The auto-leveling suspension system adjusts its stance when it needs to for perfect poise in all road conditions.

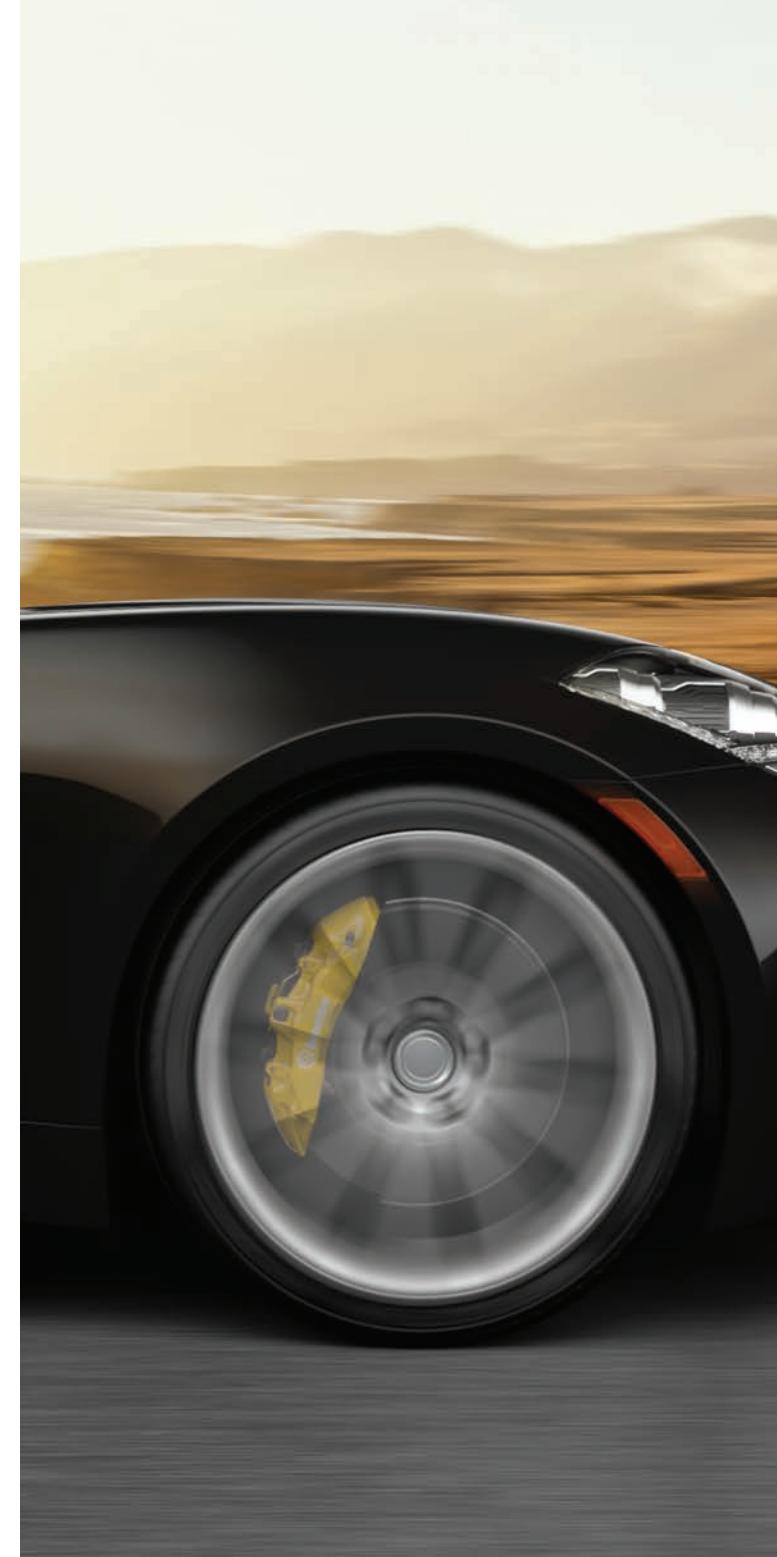

EXTENDED RANGE

The Revero's Lithium-ion battery powers its electric motors to turn the rear wheels – giving up to 50 miles of pure-electric driving range. After that, the gas-powered generator engages to propel the vehicle. Should you find yourself at the end of the Revero's 300-mile range, you have flexibility: you may recharge the lithium-ion battery or simply fill the gasoline tank and continue on to your destination.

S O L A R R O O F

The solar roof not only charges the 12V battery, but also charges the high-voltage battery, adding to the electric range. Its unique pattern isn't just for show. Our solar roof was developed for maximum efficiency by optimizing sunlight angles. It is an industry-first, and it is a signature element of our DNA.

B R A K E S

The Revero's monobloc six-piston calipers work in tandem with our regenerative braking technology to slow the Revero while recharging the high voltage battery. The powerful brakes resist fade, clamping down with steadfast confidence. This electronically-controlled system not only allows the Revero to operate efficiently, but also reduces wear on the brake components.

INFOTAINMENT

There is beauty in simplicity. An intuitive touchscreen interface controls the vehicle's audio, navigation, and personal drive settings without complex toggles and switches. The elegant diamond design language is a Karma signature which echoes the diamond inlets on the front and rear of the car.

LEATHER

Vintners often invoke the scent of leather when crafting a new wine. The warm, earthy aroma of leather inspires us, it grounds us, it's engrained in our memory. We use only minimal tanning and paint processes, allowing our leather's alluring natural scent to fill the cabin. This vehicle was made to stimulate all your senses.

INTERIOR TRIM

Your Revero reflects your taste. Those who find inspiration in our modern world may be moved by carbon fiber. This aerospace-derived material lends a sharp texture to our dark and sport-focused interiors. For those of you with an older soul, only the warm unmanufactured touch of wood will do. Our wood trim comes straight from nature so each individual piece has its own story.

Optional

Yellow caliper

Optional

Orange caliper

Optional

Blue caliper

*Optional caliper colors come with two-piece front rotors.

We are not for everybody, and we never will be.

No one needs a product like this.

We exist for those who have to have one.

GENERAL INFORMATION

Manufacturing Facility	Moreno Valley, CA
Vehicle Type	PHEV (Plug-In Hybrid Electric Vehicle)
Drive Modes	Stealth (HV Battery only), Sustain (Generator only), Sport (HV Battery and Generator)
Frame/Construction	Aluminium
Wheelbase	124.4 / 3160 (in/mm)
Overall Length	196.8 / 4998 (in/mm)
Overall Width (mirrors included)	84.0 / 2133 (in/mm)
Overall Height	52.4 / 1330 (in/mm)
Luggage Compartment Volume	6.9 / 195 (cu ft/liters)
Turning Circle Curb-to-Curb	40.4 / 12.3 (ft/m)
Curb Weight	5,400 / 2,449 (lbs/kg)
Gross Vehicle Weight Rating	6,100 / 2,767 (lbs/kg)
Weight Distribution	47 / 53
Fuel Tank	9.5 / 36 (US gal/L)

PERFORMANCE

Top Speed (electronically limited)	125 mph
Sport mode Acceleration 0-60 mph and Top Speed	5.4 sec, 125 mph (200 km/h) electronically limited
Sustain mode Acceleration 0-60 mph and Top Speed	7.2 sec, 95 mph (153 km/h) electronically limited
Stealth mode Acceleration 0-60 mph and Top Speed	6.9 sec, 95 mph (153 km/h) electronically limited
Drag Coefficient	0.313 Cd
Driving Range - Electric Only	Up to 50 miles
Driving Range - Total	Up to 300 miles

POWERTRAIN

Drive Type	Rear Wheel Drive
Electric Traction Motors - Torque	AC Permanent magnet synchronous motors, 981 ft-lbs/1330Nm
Electric Traction Motors - Power	403 HP (301 kW)
Generator Power	235 HP (175 kW)
Rear Drive Module (RDM)	Single-ratio gearbox with limited slip differential

ELECTRICAL

Battery Type	Mid-mounted lithium-ion HV battery (LiFePO ₄)
Battery Capacity	21.4 kWh
Battery Voltage	347 V nominal
Charging Level I	Onboard 6.6 kW charger Allows charging in 10 hrs on 120 V at 16 amps

CHARGING

Charging Level II	Onboard 6.6 kW charger Allows charging in 3 hrs on 240 V at 32 amps
Charging DC Quick Charge	Off-board 40 kW DC/DC charging Allows charging in 24 min on 480 V at 110 amps to 80% state of charge
Mobile Charging Equipment	6.6 kW mobile charge cord (autoswitching 110 V/240 V)
Solar Roof	200 W

SUSPENSION AND STEERING

Suspension Type	Four-wheel independent suspension with "Short-Long-Arm" (SLA) architecture
Front Suspension	Cast aluminum upper and forged aluminum lower control arms. Monotube coil-over spring/shock assemblies and 30mm diameter stabilizer bar
Rear Suspension	Cast aluminum upper and lower control arms with steel balljoints. Load-leveling coil-over assemblies and 24mm diameter stabilizer bar 5.6 in/142 mm
Ground Clearance	5.6 in/142 mm
Steering Type	Rack and Pinion with variable ratio, electro-hydraulic power assist
Steering Turns Lock-to-Lock	2.7 turns

BRAKES AND TIRES

Brake type	Four-Wheel disc anti-lock brakes with panic brake assist (six piston calipers front / four piston calipers rear)
Regenerative Braking	Blended three-mode regenerative braking system
Parking	Electrically-actuated rear parking brake
Traction	Electronic Stability Control (ESC), Traction Control System (TCS)
Front Tires	Summer 255/35R22 or 245/40R21 Winter 255/40R21
Rear Tires	Summer 285/35R22 or 265/40R21 Winter 265/40R21
Spare Tire	Inflator / Sealant kit

COMFORT AND CONVENIENCE

Lights	Bi-xenon headlamps with automatic washer, LED interior lighting
Exterior Mirrors	Folding with defrost
Rear View Mirror	Rimless with automatic dimming
Parking Assist	Front and rear Park Distance Control (PDC)

SEATS

Steering Wheel	Six-way power front, multilevel heated front and rear
Steering Column	Multifunctional controls (cruise, audio, phone, instrument cluster, voice control with Apple CarPlay)
Universal Remote Transmitter	Programmable easy entry and electronic tilt and telescope
Climate Control	Located in the rear view mirror, three programmable Homelink compatible devices
Firmware Over the Air (FOta)	Dual-zone Remote diagnostics and firmware upgrades through 4G LTE and/or WiFi

INFOTAINMENT

Audio	275 W with eight speakers and one subwoofer
Radio	AM/FM/HD (2017)
3rd Party Audio	Apple CarPlay and Android Auto (2017)
Bluetooth	HFP/A2DP/AVRCP/PBAP/PANU/DID compliant
Other Connections	Two USB ports 2.1 A and one USB 1.0 A one 12 V outlet in rear
Navigation	Onboard mapping with over-the-air updates
Real-Time Traffic	With cellular coverage

SAFETY

Airbags	Eight total airbags: two-stage driver/ passenger airbags; knee airbags; full-length side-curtain airbags; seat-side airbags.
Child Seats	LATCH (Lower Anchors and Tethers for Children) compliant
Pedestrian Awareness	Audible external pedestrian sound up to 28 mph
Advance Drivers Assistance System (ADAS)	Lane departure warning, forward collision warning, automatic windshield wipers, automatic exterior low beam lighting, park distance monitoring, rear back-up camera, tire pressure monitoring
